EXPERIENCE

IT Intern — Quality Assurance Division, USeP, Davao City

JUNE, 2024 - DECEMBER, 2024

- Built a full-stack web application with Laravel and React to digitize and automate internal quality audit workflows for the university, replacing a manual, paper-based process.
- Owned core modules end-to-end: dynamic checklists, compliance reports, and audit summaries, covering the full audit lifecycle from data entry to reporting
- Worked directly with QA staff to translate manual audit procedures into structured digital workflows, ensuring the system fit real institutional needs before rollout

PROJECTS

FraudSite — Capstone Project

- Built the full web platform for a dual-platform cybersecurity tool (Laravel, TypeScript), pairing a public site with a browser extension's scan-and-report engine
- Engineered an admin system with RBAC across 7 modules, including full server- and client-side pagination, filtering, sorting, and input validation

Internal Quality Audit System (IQAS) — OJT Project

- Designed and normalized the relational database, and stress-tested the system for stability under 150+ concurrent users
- Built the dynamic checklist, audit report, and summary modules (Laravel, React/TypeScript)
- Co-authored the system documentation and a user manual for institutional handoff.

Pet Adoption — Academic Project

- Built a full-stack pet adoption platform (Next.js, Prisma ORM) with CRUD operations, adoption workflows, and a review system
- Built an admin panel managing 40+ animal records, with responsive UI and scroll-reveal animations

EDUCATION

Bachelor of Science In Information Technology, major in Information Security

University of Southeastern Philippines, Davao City

AUGUST, 2022 - JUNE, 2026

CERTIFICATIONS / TRAININGS

- Defending Against SQL Injections Seminar – May 7, 2025
- Ethical Hacking Seminar – March 5, 2025
- ICP Smart Contract Code Camp – Sept 24, 2024
- DICT Blockchain technology and cybersecurity seminar – Sep 5, 2024

SKILLS

- **Security:** SQL injection defense, ethical hacking fundamentals, role-based access control (RBAC)
- **Languages:** Java, Python
- **Web Development:** JavaScript, TypeScript, PHP, React, Laravel, Next.js, Express, HTML, CSS
- **Databases:** MySQL, SQLite, phpMyAdmin
- **Tools:** Git, VS Code, Postman, Figma, REST API design
- **Soft Skills:** Problem-solving, Communication, Teamwork, Time Management, Attention to Details

AWARDS/ ORGANIZATIONS

- **Graduated Magna Cum Laude**, University of Southeastern Philippines
- **Consistent Dean's Lister**, University of Southeastern Philippines (2022–2026)
- **Member, AITIS (Association of IT Innovator Students) Organization** (AY 2025–2026)
- **Auditor, AITIS Organization** (AY 2024–2025)
- **Member, SITS (Society of Information Technology Students) Organization** (AY 2022–2024)
- **Class Treasurer** (AY 2024–2025)
